

Business Value Roadmap Workshop

Outcomes

- Identification of your company's business value drivers and required data capabilities
- High level quantification of benefits, risks, and dependencies
- Prioritization and alignment to a 12- month roadmap for value realization

How are you realizing business value from your data investments?

Most companies know that they need robust data capabilities to remain competitive and grow their business. Do you know how you are getting there? Having a game plan for how these investments will achieve business value is essential.

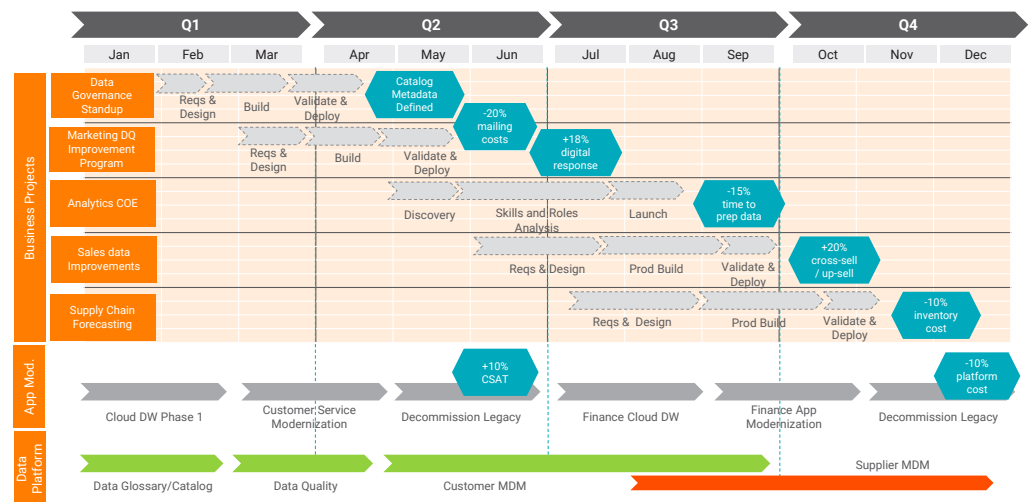

In this engagement, Informatica's Advisory Services team will lead your business stakeholders through an interactive business opportunity definition and prioritization exercise, culminating in a roadmap for short- and long-term value realization.

Utilizing the Informatica Data Strategy Framework, we will identify, assess, and score business opportunities across benefit categories, while identifying technical and organizational risks and dependencies. Benefits will be quantified across the value spectrum, including:

- Increased revenue / commercial
- Reduced costs
- Reduced business Risk
- Improved Customer Experience
- Faster time to market
- Improved operational efficiency
